ABOUT OUR COMPANY

Oxylus Ltd. is a company founded in 2006 with headquarters in Osijek, Croatia. We started modestly in the different branches of trade. In 2013, we started the production and development of our own brand and thus we ensured new markets and partners. We consider that our partners trust is our greatest achievement.

5 **PRODUCT CATALOGUE** innoLAB PRO

OUR VALUES

By developing specific chemical products according to clients' needs as a business service, we have opened a new speed up the development, found solutions and create a fertile environment in which we can sell innovative results of our work.

Our Mission

The challenge is great, but our goal is simple: business excellence, innovative and creative ideas, creation of products and services that will make a real difference.

Our Vision

Being different is our motivation, because it means to be interesting and irreplaceable. Our mission is to provide best service and solutions to our partners with superior quality products, new businesses and people.

Our Goal

With a network of partners, Oxylus Ltd. wants to build relationships throughout Europe, and through research and innovation in the industry, wants to find solutions and create additional value and opportunities for our partners in future.

We are engaged in the manufacturing and distribution of innovative chemical products for industry and other sectors of the economy. Expanding production and introducing new technologies, we have specialized in the fields of production and maintenance.

Our products are high quality, easy to use and safe. Innovative and attractive technology and manufacturing of the specific products according to the requirements and need, brings real results for the costumers.

chapter in our company. By bringing up these disciplines, we maximized the efficiency of our products,
